DETAILED ACTION

This office action is in response to applicants' communication filed on 5/5/05.

Claims 1-8 and 32-43 are pending in this application.

Claim Rejections - 35 USC § 103

1. Claims 1-8 and 32-43 are rejected under 35 U.S.C. 103(a) as being unpatentable over combined teachings of Jeffrey et al and Fang et al, all for the reasons of record.

Applicants' arguments were fully considered and were not found convincing. At the outset, applicants' remarks that Jerrusi et al is not a valid reference, is noted and accordingly Jerrusi reference is hereby withdrawn. The rejection over Jeffery et al and Fang et al is still fully supported.

Applicants argue that the rejection over Jeffrey and Fang et al cannot be sustained, as the three criteria required for the prima facie obviousness are not satisfied. Applicants argue that Jeffrey does not suggest stereoisomerisms. The examiner disagrees. Applicants further argue that even if Jeffrey show stereoisomerisms, they don't show as to how to prepare such stereoisomers. The examiner would like to point out that applicants are not claiming the method of as to how to prepare the stereoisomers.

The examiner does not understand applicants' arguments that Fang disclose the preparation of enantiomers but is silent to their desirability, and none of the compounds are claimed herein. At the outset, inasmuch as the preparation is there, the desirability is there too. With reference to hydroxy substituent, note a combination of the

references have been used. Examiner also does not understand applicants' statement that instant claims are **stereoisomers of the positional isomers**.

Given that, Jeffery et al are teaching, structurally similar compounds as claimed herein, and Fang et al are teaching preparation of enantiomerically pure sibutramine and its metabolite, there is indeed motivation to arrive at the claimed enantiomers, absent evidence to the contrary.

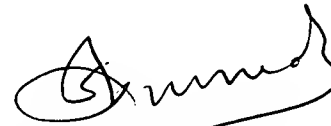

2. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
